ABOUT ONRAMP

OnRamp is a leading HITRUST-certified data center services company that guides businesses through the complexities of data security and compliance. Our solutions help organizations in healthcare, financial services and education services meet compliance standards, including HIPAA, PCI, SOX, FISMA and FERPA. OnRamp operates multiple SSAE16/AICPA SOC 2 Type 2 and SOC 3 certified data centers to deploy hybrid computing solutions that let you blend secure cloud computing, managed hosting, and colocation to best meet your unique requirements. Contact us for more information:

DATA CENTER COLOCATION

Partner with OnRamp to mitigate IT risk, turn CAPEX into OPEX, limit costs and scale at a faster pace. OnRamp's colocation services enable our customers to locate their IT infrastructure in company-owned data centers designed to the latest standards without constraints on connectivity, power, reliability or security.

"What really stands out is the customer service and the expertise of the NOC staff. I don't have any problems getting ahold of somebody here if something is critical. In other data centers I have to go through either chasing somebody down or [the] bureaucratic red tape that they've set in place." Global Network Operations Manager - ASI

COMPLIANCE FOCUSED

- HITRUST CSF Certified
- SSAE 16 / AICPA SOC 2 Type 2 & SOC 3
- PCI DSS Certified
- HIPAA Compliant

Additional Compliance Frameworks:

SOX | GLBA | FISMA | FERPA | FACTA
